

PAYONE Integrations

Welcome

Welcome to the Integrations space! Here you can view the documentations to our official shop modules.

Feel free to contact us for further information and subscribe to our feed to get the latest news and releases (no spam, promise!) - You can then use your favorite feed reader or push the feed into your team chat.

Eager to get coding but you don't know where to start? Try A Simple PAYONE Integration in PHP!

Overview of Our Available Plugins

Please refer to [Available Integrations](#) for an overview of our integrations and their features.

How to Find and Install Our Plugins

We use GitHub for all of our own projects, so feel free to star your favorite repository there. This is where you'll find bleeding edge versions of our plugins as well as stable and tested releases. Some modern Shop systems also only work with GitHub releases, like Magento 2 or Oxid 6.

You can also find us on many of the official plugin stores, such as the [Shopware Community Store](#), [Oxid eXchange](#), [plenty Marketplace](#), [prestashop Marketplace](#) and [WordPress](#).
