Hi all,

it's finally here: You can now use Apple Pay in your Shopware 5 Shop!

This is new in our latest release:

## New Features

- New payment method: Apple Pay --> for configuration see <https://docs.payone.com/display/INT/Integration+Guide+Shopware+5#expand-ApplePay>

## Bugfixes

- fixed a bug that would lead to faulty txstatus behavior in Shopware <5.7
- fixed a bug in rounding of VAT for countries with non-integer VAT rates (e.g. Switzerland)
- fixed smaller issues and typos

## Maintenance

- Renamed Paysafe Pay Later to Unser
- "use shopware order number" is now active by default, since most merchants would want to use it anyway
- Tested in Shopware 5.7.6

As usual, you can get the new release on Github:
